Yana Holoborodko

Front-end developer

Hello, my name is Yana and I'm passionate about web development :)
I have previous commercial experience in back-end development in Java, but now I focus on front-end technologies. I can't wait to become part of development team and contribute with my skills, personality and passion. My soft skills include fast learning, creativity, stress-resistance and ability & desire to work in a team.

Work Experience

Java Junior Developer

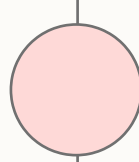

Asseco Data Systems (Lodz) 07.2017 - 01.2018

Responsibilities:

- Designing, implementing and testing code to deliver business solutions in Java and JEE applications,
- Maintaining existing applications,
